Get blazing fast printing speeds, high-volume scanning, and easy management with LaserJet Pro.

Get blazing fast printing speeds, high-volume scanning, and easy management tools with LaserJet Pro.

This printer is intended to work only with cartridges that have a new or reused HP chip, and it uses dynamic security measures to block cartridges using a non-HP chip. Periodic firmware updates will maintain the effectiveness of these measures and block cartridges that previously worked. A reused HP chip enables the use of reused, remanufactured, and refilled cartridges. More at: http://www.hp.com/learn/ds

Observación: **Recomendación General**
Como recomendación general, siempre que se realicen transacciones comerciales con cualquier contribuyente, el SII aconseja verificar, en las opciones anteriores habilitadas, el timbraje del documento y que la actividad económica esté vigente en las bases de datos del Servicio. Además, se recomienda verificar que el domicilio y la actividad económica consignados en la factura o boleta que reciba, correspondan al vendedor o prestador del servicio ofrecido.

Para un mayor resguardo, se recomienda efectuar el pago con cheque nominativo o vale vista a favor del proveedor, anotando al reverso el RUT del emisor y número del documento recibido.

Si el contribuyente correspondiente al RUT consultado, no está de acuerdo o desconoce la situación informada en esta consulta, deberá concurrir a la unidad del SII correspondiente a su domicilio para aclarar o resolver su situación.

Esta consulta no constituye una certificación del comportamiento tributario del contribuyente. De esta manera, si para un RUT no aparecen observaciones, no significa que en una posterior auditoría no se detecten problemas.
